

Roberts Bakery are proud to be a part of [Chester Zoo's Sustainable Palm Oil Communities Project](#) as a Sustainable Palm Oil Ambassador. We already source 100% certified sustainable palm oil through RSPO supply chains and by 2026 we will have worked to ensure that where palm oil is present in our food, it will be sourced from segregated or identity-preserved sustainable sources. By doing this we know that we are helping to protect wildlife around the world from the impact of unsustainable agricultural practices, whilst encouraging others to make the change to sustainable palm oil.
